Thanks Karen. Your response is consistent with others.

Have a great weekend.

Alan

Yes, and the 319 contract template also has language to that effect: no work involving monitoring or data collection can be initiated w/o an approved QAPP.

Hi Alan

It's my understanding that any monitoring funded by DEQ would need a QAPP prior to sample collection, including 319 funded projects.

cheers

Gene

**Subject:** Approved QAPPs for the monitoring projects

Hi guys,

As you know, I am reviewing DEQ's FY 2016 319 application and one of the items for me to check pertains to the QAPPs for any of the monitoring projects. Do all of the proposed 319 projects which include monitoring, have approved QAPPs or will they have QAPPs before they begin monitoring?

Your responses will be greatly appreciated.

Alan
